Ark Pioneer Academy Subjects

Ark Pioneer Academy offers a wide range of subjects for pupils to learn.

The Core Curriculum subjects are as follows: English Literature and Language, Mathematics (Maths) and Science. When pupils reach Year 10 Science is offered as Biology, Chemistry and Physics. English is the study of how we use language to communicate in poetry, novels and plays. Pupils are also taught how to use English vocabulary and grammar correctly. In Maths pupils are taught how numbers help us learn more about the world we live in – in topics such as fractions, angles, and algebra. In Science pupils learn about the world around us - the natural world and animals, astronomy and electricity to name a few.

The Extended Curriculum consists of the following subjects:

Art, Design Technology (DT), Drama, French, Geography, History, Music, Physical Education (PE), Religious Education (RE). In these subjects pupils will learn about different ways to create art, ways to build using different materials such as wood or plastic, about world faiths, about the effect humans have on the world, about how the human experience is portrayed on the stage or in music and how we use our bodies to keep healthy and strong.

The school also offers two lessons a week of 'enrichment' studies. These are lessons offered according to the interests of the staff that run the lessons. Pupils may choose the enrichment lessons that most interest them. The enrichment programme is wide and varied. Lessons to date have included Baking, Choir, Creative Writing, Dance, Drama, Eco School, Film and Media studies, Football, German, Music, Netball, Spanish and Yoga.
